The Floor Care People

9ltr HEPA Dry Tub Vac

HEPA13 ADVANCED FILTRATION

HEPA delivers 8 times better than the certified HEPA13 standards typically demanded in healthcare environments of filtration down to 0.3 microns at 99.97% efficiency (i.e. fewer than 300 particles per million). The V9 HEPA filter cartridge captures and traps fine particles, such as pollen, dustmites and pathogens, including bacteria, reducing the risk of recirculation back into the environment.

- Powerful suction
- Long lasting 2 piece steel tube
- Five castors give stability and prevent vac toppling over in use
- Full accessory kit

V9	9ltr HEPA Dry Tub Vac	£142.50
SBI5502P	V-9 HEPA Filta Vacuum Bags Pk 10	£10.74
